

## Scholarship Application

Thank you for your interest in the Arizona Pilots' Association Scholarship.

Our mission is to assist young men and women from Arizona in achieving a vocational or post-secondary education. APA awards annual scholarships to help fill the unmet financial need of students pursuing aviation-related education opportunities at accredited colleges, universities and technical institutions.

The enduring goals of APA's scholarship program are:

- To promote a wider and deeper respect for learning in general and for exceptionally talented individuals in particular
- To shine a spotlight on deserving students and encourage the pursuit of academic excellence at all levels of education

The Arizona Pilots Association awards scholarships each year to deserving high school students. With these scholarships we hope to further the education of students who intend to work in the field of aviation as a pilot or an aircraft maintenance technician. Applicants should maintain a scholastic position in the upper half of their graduating class and demonstrate leadership qualities, moral character and concern for others through their service. Applicants must certify their intent to continue their education in the field of aviation through participation in an aviation related field in college.

Please carefully review the requirements and submit all necessary documents by the deadline listed on the [azpilots.org](http://azpilots.org) website. Please answer all questions on the application. Use your cover letter to tell us anything else you'd like us to know, beyond what we ask in the application.
